Inquiry: When do I find the time?

Donna Olsen
Albion CSD, Retired
STEM Education

✓ Inquiry-based teaching/learning can be infused into lessons on a regular basis. Teachers struggle with the idea of teaching in an inquiry-based classroom. "I would love to let my students have more time to wonder, experiment, question, design, research, interpret and report their findings but WHEN do I teach content? When do I assess? WHEN do I incorporate inquiry-based learning?" This workshop will assist teachers in recognizing when inquiry is appropriate and how often it can actually be utilized effectively.
